

Working group 3

28 october 2016

Subjects

- We mainly discussed our role and the progress of the EU campaign: Healthy workplaces for all
- Some new possible subjects for WG 3 were suggested

Promotion of the EU-campaign

- Our website has a link and some short explanation (Alenka asks Ole)
- Links to the campaign in the websites of the national associations
- Presentations or a stand (with the promotional material in the country language) in our national congresses

To all members

- Let Ferenc and/or Simon know what national actions were undertaken, so we can report to the campaign responsible

Statements to make to EU-OSHA

- We applaud the campaign and the points of view that were developed, eg all ages and not only older people; general health promotion as part of occ health...
- We like to work together with EU-OSHA
- Suggestion to have OHS in education of children at school age
- We would like to know the content of the next campaign in advance, so that we can prepare
- Why not prolong the campaign? The start took nearly 1 year yet.

Possible new subjects, not yet developed, nor agreed upon

- Statement about **professional protection** of occ. Phys.
 - Many differences between countries
 - Is part of legislation in some countries, others not
 - What to propose on EU-level?

Possible new subjects: not yet developed nor agreed upon

- **Finance of training of occ physicians** is sometimes not done anymore by universities or governments
 - Is this a sole problem in Spain, other countries?
 - Is this a threat for other countries, regions?
