

OCCUPATIONAL MEDICAL SERVICES IN EUROPE

Milan Tuček

Czech Society of Occupational Medicine

UEMS OM Meeting , Riga, Latvia 2014

UEMS OM Questions

- 1) number of specialists of occupational medicine or occupational physicians working full time in OM
- 2) % of workers covered by specialists of occupational medicine or occupational physicians
- 3) total workforce

COUNTRY	OP+OHP / 100 000 workforce	OP (ev. full time FT)/OHP	Coverage (%)	Workforce
Belgium	25.0	1000 (FT 800) (80-90% OP)	50	4 million
Denmark	2.3	65	?	2.8 million
Ireland	18.7	86/250 partly	15-20	1.8 million
Croatia	9.3	168	80	1.4 mil (1.8 incl. unempl.)
Finland	33.5	770	over 90	2.3 million
Luxembourg	15.6	20/37 OHP (planned 73x5000 workers) not allowed partly!	?	0.365 million
Slovenia	12.4	97 (FT only)	80	0.782 million
Latvia	49.1?	50/362 partly	70	0.839 million
Estonia	8.7	54 (FT not distinguished)	?	0.621 million
Switzerland	2.9	100	?	3.4 million
Norway	13.0	350 (50 in hospitals)	52	2.7 million
Austria	31.2	110 OP not FT/ 1200 OHP (300 FT)	30 ? of SMEs (till 50 employees)	4.2 million
Czech Republic	13.6	80/600?	?	5 million
Germany (ASU journal)	30.6?	5482 (total 12222)	?	40 million ?

OP = occupational physician (specialist)
OHP = occupational health physician (nonspecialist in OM)
FT = full time

ETUI Questions

- **Number of occ. physicians (recognized by national legislation as persons entitled to perform activities in occupational health surveillance)**

The final number should present full engagement (8 hours working time of specific activities) per one occ. physician

- **Estimation of a percentage of workers covered by occupational physicians' surveillance**

Please add a source of information if possible

- **The number of active workforce in your country**
- **OP + OHP / 100 000 workers**
- **What are the main challenges in the field of occupational health prevention at national level?**
