# The future of life- How might it look like?

## The Global Economic Burden of Non-communicable Diseases

A report by the World Economic Forum  
and the Harvard School of Public Health

September 2011

### Preface 2011- some aspects Facts and Figures

- + Non-communicable diseases have been established as a clear threat not only to human health, but also to development and economic growth
- + Claiming 63% of all deaths, these diseases are currently the world's main killer
- + Over the next 20 years, NCD's will cost more than US Dollar trillion, representing 48% of the global GDP in 2010
- + **Executive summary:** It is our hope that this report informs the resource allocation decisions of the world's economic leaders
