

UEMS COUNCIL, Brussels, 10.04.2015 - 11.04.2015

SHORT REPORT

Official Minutes will be sent by Secretary General Dr. Edwin Borman, my short report only emphasizes the most important items.

10.04.2015

MEETING OF THE 3 GROUPINGS OF UEMS SPECIALIST SECTIONS AND BOARDS

There are all medical sections distributed among 3 groups, our Section together with Anaesthesiology, Psychiatry, Neurophysiology, Dermatology and Venereology, Medical Biopathology, Nuclear medicine, Ophthalmology, Pathology, Public Health, Radiology, Radiotherapy. The discussion in all the groups underlined that recognizing the financial situation in the UEMS it is necessarily that transparency and information flow from Brussels to the Sections is obligatory to avoid misunderstandings.

UEMS COUNCIL – 1st part

The report of Secretary General stressed the importance of the opening of DME (Domus Medica Europea) and also moving of the UEMS staff to the new location. Financial matters became a problem related to the unexpected invoices of the refurbishment of DME. The Council approved the procedures that are needed to consolidate the situation.

The new UEMS Section in Clinical Pharmacology was created.

In the evening the official opening of the DME took place.

11.04.2015

WORKING GROUPS on e-Health, Continuing Medical Education and Professional Development, Postgraduate Medical Specialist Training, Quality of Patient Care and Specialist Practice in Current Health Systems took place, the reports are following.

The proposal for the Training requirements for the specialties have to be prepared on the standardized template while curriculum template has not been formed already so we are free to fulfil our task the way we think to fit the best.

UEMS COUNCIL – 2nd part

CESMA has made a huge progress and more than a half of the UEMS Sections have got European Exam already. Some of the states decided to approve European Exam also as their National Exam in a medical specialty.

The UEMS is a partner in the EU Commission's new initiative to address the issue of healthcare workforce at the European level. We will take a part in this project.
